A Presentation on the History of Valentines Day to Laurens Women's Club

On February 14, 2025, Evelyn Hakes presented to the Laurens Women's Club at West Iowa Bank a history of Valentines Day. In overview, the origin of Valentines Day was a pagan Roman festival of fertility celebration. In the 3rd century, a priest named Valentine performed secret marriages for young soldiers who were not allowed to marry. This was against the wishes of the pagan emperor. In the 5th century, Pope Gelasius declared February 14 as the Feast of St. Valentine, making it a Christian holiday. In the Middle Ages, Valentines Day was also associated with the bird mating season. By the 18th century, people in America were commonly exchanging Valentine cards to celebrate Valentines Day. In 1913, Hallmark began mass producing Valentines Day cards. Today, about one billion Valentine Day cards are sent world wide.

Next Tuesday is our crafty day. The after school kids will be making Leprechaun Lookers. The adults will be making cute Leprechaun decorations. Let us know if you'd like to join the fun so we can be sure to have plenty supplies.

We recently received a few nonfiction selections in memory of Don Beneke by Grace & Don Hertz. *Compassion in the Court: Life-Changing Stories from America's Nicest Judge* by Judge Frank Caprio, *The Let Them Theory: A Life-Changing Tool That Millions of People Can't Stop Talking About* by Mel Robbins, *Memorial Days: a Memoir* by Geraldine Brooks (Large print) and *Source Code; My Beginnings* by Bill Gates (Large Print).

The book *The Sioux Rapids Flood June 22, 2024* was recently donated to our Library. It includes so many pictures and stories of the devastation that occurred so close to our home last summer.

New novels recently include: *Battle Mountain* by C.J. Box, *Back after This* by Linda Holmes, *Famous Last Words* by Gillian Mcallister, *Paranoia* by James Patterson, *To Save the Man* by John Sayles, *Close Your Eyes and Count to Ten* by Lisa Unger, *Deep End* by Ali Hazelwood, *This is a Live Story* (a Read with Jenna pick) by Jessica Soffer and *Far From Home* by Danielle Steel.

This month's Book Club choice is one I've seen on lots of "best of lists, so I've been curious. Deb found us multiple copies, so we will be reading *The Extraordinary Life of Sam Hell* by Robert Dugoni. Here's a synopsis: As he looks back on his life, Sam embarks on a journey that will take him halfway around the world. This time, his eyes are wide open--bringing into clear view what changed him, defined him, and made him so afraid, until he can finally see what truly matters. Sam, a small-town eye doctor, is no longer certain anything was by design-- especially not the tragedy that caused him to turn his back on his friends, his hometown, and the life he'd always known. Running from the pain, eyes closed, served little purpose.

Planning and Zoning Workshops for Local Officials Now Open for Registration

Iowa State University Extension and Outreach is offering Intro to Planning and Zoning for Local Officials workshops this spring to help local leaders navigate zoning laws, understand their roles and make informed land-use decisions.

Three-hour workshops will be held across Iowa to focus on real-world applications of planning and zoning principles. Luke Seaberg, an ISU Extension and Outreach community development specialist, said the sessions are designed to be interactive and practical.

“Planning and zoning decisions affect everything from housing and business development to farmland and public spaces,” said Seaberg. “These workshops provide local officials with useful tools to guide thoughtful, well-informed decisions that serve their communities.”

Workshop dates and locations. Each session includes

a light dinner and networking time, giving local officials an opportunity to connect with others facing similar challenges.

- April 2 – ISU Extension and Outreach Dickinson County Office, Spirit Lake
- April 8 – ISU Extension and Outreach Johnson County Office, Iowa City
- April 16 – ISU Extension and Outreach Webster County Office, Fort Dodge
- April 22 – ISU Extension and Outreach Woodbury County Office, Sioux City
- April 29 – ISU Extension and Outreach Dubuque County Office, Dubuque
- May 6 – Hilton Garden Inn Des Moines/Urbandale, Johnston

Who should attend? This workshop is designed for local decision-makers, including city council members, county supervisors, planning and zoning commissioners, zoning board of adjustment members, municipal staff and regional planners.

“For many attendees, this is their first formal introduction to planning and zoning,” Seaberg explained. “For others, it’s a chance to get a refresher and discuss new trends and legal updates. Either way, participants

leave with practical knowledge they can use in their roles.”

What will you learn? The curriculum covers comprehensive planning, variances, special uses, nonconforming uses, spot zoning, hearing procedures and ethical considerations. Using real-world case studies, participants will see how these principles are applied in local zoning decisions.

“We don’t just talk about zoning rules. We provide local decision makers with the tools and knowledge they need to make well-informed decisions about land use in their communities,” Seaberg said.

How to register. The registration fee is \$65 per participant, with a discounted rate of \$55 per person for groups of three or more from the same city, county or nonprofit organization.

In addition to these scheduled workshops, ISU Extension and Outreach’s Community and Economic Development unit offers customized, place-based planning and zoning training for cities, counties and townships across Iowa as needed.

For more information, contact Luke Seaberg at seaberg@iastate.edu or Esther Crompton, ISU Extension and Outreach communication specialist, at ecrompt@iastate.edu.

Pocahontas County 4-H Workshop Offered

Pocahontas County 4-H members gathered at the ISU Extension and Outreach Pocahontas County Office for an educational and fun "No Bake Charcuterie Board Workshop." This valuable hands-on workshop provided youth with essential skills in preparing healthy meals and snacks without using typical kitchen appliances. As they created their own Valentine's-themed charcuterie boards, participants had the opportunity to explore various ingredients and flavors, fostering teamwork, creativity and an appreciation for nutritious eating.
